DETAILED ACTION

Applicants are requested to clarify the continuing data. The data provided by them is not consistent with PTO records.

Claim 16 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. CANCERLIT AN 75803230 (abstract) discloses that not all of the cannabinoids recited in claim 16 have cytotoxic activity against malignant tumors. Applicants have presented data that demonstrates the effectiveness of .delta.9-tetrahydrocannabinol (THC) against glioblastoma cells, but have not presented any data that demonstrates the effectiveness of any of the claimed cannabinoids against any of the recited brain tumors.

Claim 16 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is no antecedent basis in line one, which recites "mammals" for the word "mammal" in line 7. Furthermore, it is not clear if more than one mammal must be treated in the instant method. Additionally, in line 7, the phrase "to mammal" is grammatically incorrect. These rejections will be overcome by amending the claim to recite "a mammal" in lines 1 and 7.
